

Riyadh Chamber Business Delegation To The Kingdom Of Thailand

July 04th – 06th .2022

Mr. Ajlan A. Alajlan

Chairman of Riyadh Chamber

Riyadh Chamber is one of the oldest and largest chambers of commerce in Saudi Arabia, with a membership of over 250 thousand subscribers. As a representative of the private sector through its board of directors, the Chamber is keen to keep abreast of the objectives of the Kingdom's Vision 2030 by assuming its role in promoting public- private partnership and joint coordination. This is to carry out vision programs aimed at sustaining the country's development and diversifying its national sources of income. The Chamber offers various services to local and foreign investors through an integrated digital service system.

Over the past few years, the Chamber has received several world dignitaries, including heads of state and Government from different nations of the world. It is particularly interested in strengthening the Kingdom's business and economic relations with sister and friendly countries by encouraging mutual exchanges of visits between business delegations and holding economic forums, allowing for identifying investment opportunities in the Kingdom and the other countries concerned. It is an important initiative to strengthen economic ties and investment partnerships that would benefit all concerned parties.

Mr. Abdulaziz A. AlNuwaiser

Member of the Board of Directors
CEO

aramex

Aramex is a provider of comprehensive logistics and transportation solutions. Established in 1982 as an express operator, the company rapidly transformed itself into a global brand recognized for its customized services and innovative multi-product offering. The range of services offered by the company includes international and domestic express delivery, freight forwarding, integrated logistics solutions, information and document management solutions, consumer retail services and e-commerce solutions.

In January 1997, Aramex became the first Arab-based international company to trade its shares on the NASDAQ stock exchange. After five years of successful trading, Aramex returned to private ownership in February 2002 and continued to expand and excel as a privately owned company, establishing global alliances and gaining stronger brand recognition. In June 2005, Aramex went public on the Dubai Financial Market (DFM). Today, the Aramex network encompasses more than 18,000 people in over 66 countries across the GCC, the Levant, Africa, Asia, Europe, North America and Australia, including 2,220 indirect employees worldwide.

Mr. Abdulaziz Saleh Al Fraidi

Vice president
Albawani CO.

Al Bawani is a diversified group of Saudi companies. Established in 1991, the past three decades have seen our business grow from a modest civil-works firm into a fully ledged general contracting corporation with a sizable portfolio, strong financial position, and a significant presence in a broad range of industries. Indeed, our construction division is now among the five largest operators in the country. What's more, our unwavering focus on excellence has earned us a Class-1 business ranking in Saudi Arabia.

To date, we have completed over 250 projects, building long-term partnerships and earning the trust and loyalty of our clients in the process. Furthermore, we currently have over SAR 9 billion worth of ongoing projects. These are being serviced by our 12,000-strong workforce, each of whom is a specialist in their respective fields.

The group has bolstered its reputation by adhering to international standards and developing rigorous quality management systems in its business sectors. We have also established rigorous procedures to ensure the safety of our personnel – as a result, errors are minimized, and projects are delivered on time and within budget.

Ultimately we meet, then exceed, our clients' expectations. The success of the business is further underpinned by our world-class engineering, administrative, and technical teams who utilize cutting-edge technology, equipment, and integrated support services. We are now investing in the future so that we can introduce the latest technology and knowledge to the Kingdom. This will allow us to harmonize with the objectives of Vision 2030: a striving economy, a vibrant society, and an ambitious nation.

Mr. AbdulHadi Sarhan AlQarni

Head of the Safety Main Committee
CEO and founder
Crash Group

We are not a normal group for (safety, risk, loss prevention, technical services, training, consultation and contracting); rather, the efforts made by Crash Group (CG) team have achieved what we are aspiring to in the field of protection from risks, prevention of losses, and security and administrative organization. Our ambition is not limited by the successes we achieved as we still continue to make success. Do you look for a plan of preparation and qualification of your establishment and protect it from all risks and minimize the insurance policy? Are you still aspiring to learn how we operate? And do you want to know how to qualify your establishment and business activity from A to Z? Then, we have the solution at (CG). In short, entrust us with your project from the concept to its end and relax. We will be up to your expectations and will obtain your satisfaction, God willing, and at a special prices.

Who are we?

The year of our launch (2015) in Crash Group (CG) was not an ordinary year, and our launch in the fields of protection from risks and loss prevention as well as administrative development and organization was not a traditional event, but it was rather a year of real commotion rife with enthusiasm and hope, which were the two means that supported us until we achieved success. We made a new leap in the world of safety, protection and prevention of risks of all kinds. We were not like any other company or institution whatsoever.

Mr. Yousef F. Alhammadi

CEO

Mr. Abdullah Ibrahim Alkhorayef

C.E.O

Alkhorayef Commercial Company

Alkhorayef Group was founded in 1957 by the late Abdullah Ibrahim Alkhorayef, who was quite ambitious and daring. By virtue of his dedication, the group made its name in Saudi Arabia's agriculture sector. He soon represented reputable international producers of water pumps, agricultural, irrigation and well drilling equipment in the Kingdom.

In a short span of time, Alkhorayef Group has achieved excellence on agricultural market by representing and marketing the top of the line brands, combined with a variety of excellent services to its customers.

The Company diversified its activities and continued its progress in various fields such as machinery systems, oil, contracting as well as printing and paper. As it became necessary to pay particular and specialized attention to each field, the founding Company branched into several subsidiaries, each being independent in terms of management and resources, but all are unified under the established corporate code of ethics of the Alkhorayef Group.

Today the Group which enjoys a worldwide presence, operates in more than 40 countries representing renowned quality products and manufacturers.

Eng. Ahmed Rashid Alballaa

Vice Chairman
National Aquaculture Group

On the Red Sea coast of Saudi Arabia, in the city of Al Lith 180 km south of Jeddah, lies National Aquaculture Group, one of the largest integrated aquaculture projects on the desert coasts in the world. Its farms are fed by clean virgin water of Red Sea and have careful control of product from the beginning at hatcheries, to the ponds, until reaching the dining table, ensuring quality, sustainability and safety of product, focusing the company's commitment to its customers.

The company employs more than 3500 employees, who have the capacity to produce more than 100,000 tons of shrimp and about 12,000 tons of seabass and marine tilapia per year. The company's products are marketed inside and outside the Kingdom to about 30 countries around the world, including the United Kingdom, Spain, Italy, Japan, Korea, USA, China, Australia, Egypt and other countries. Product sizes vary according to customers' desire and its products are known by excellent taste and high quality. In 1982, the group started as a simple research center, and by its continuity, design and scientific technical methods transformed into what it is today. It contributes to diversifying the Saudi economy by developing the field of aquaculture industry in the Kingdom. The company is committed to contribute to the development of society, economically, socially and environmentally.

The group adopts a policy of preserving the environment in all stages of production - from the hatchery to the ponds until it reaches the dining table - and this is what distinguishes the products of the group. The company has obtained a range of international quality certification, such as food safety certificate and approval for export to the European Community. It has also obtained ISO 22000 certificate for Food Safety Management Systems, ISO 9001: 2008 Quality Management, 14001 Environmental Management, and membership of UK Retail Federation since 2010 for global food safety standards, and recently obtained the Best Aquaculture Practices (BAP), Good Aquaculture Practice (GAP) and Aquaculture Stewardship Council (ASC) Certificates.

Dr. Ali Al Buridi

Chairman
Legal Solutions

Welcome to Legal Solutions Company, whose name refers to its philosophy of providing protection, care, privacy and continuity in a positive legal environment that aims to meet the needs and requirements of clients.

“Legal Solutions” transfers the concept of special services, which its members used to obtain from leading institutions such as banks and tires, to legal work. So, “Legal Solutions” is distinguished by the usual performance, rigid templates, and the bilateral relationship between the client and the consultant, which the developed business environment no longer accepts him to engage in joint work within one team with the beneficiary of its services in communication that is not restricted by working hours or geographical scope to provide “solutions” that distinguish each beneficiary of its services.

Thus, legal solutions work through its legal system to provide permanent legal support to elite economic drivers in the Kingdom, with transparency and credibility with its affiliates, to form an “alliance for success” that serves the national economy of the Kingdom.

our mission

Providing legal solutions through a deep understanding of the needs of each individual beneficiary.

Our goal

Developing relationships with the beneficiaries of our services to form a homogeneous team.

Our Sign log

Commitment to work to achieve achievement with professional responsibility.

Mr. Albara Alsayed

Chief Financial Officer

What we aim for

02. Our Mission

To assist our clients achieve their objective through the development and execution of customized & meticulously planned events.

Maak events is the right choice to access the saudi market and partnership with Local spirit company with international standards.

Mr. Mishaal Khaled Aldebian

Executive Director
LAPIS jewelry

Al-Debeyan group was founded in 1975 by members of the Al-Debeyan family as a family establishment under the trade name (Al-Debeyan Jewelry) which was a small store, not more than 30 square meters, in Al-Mutanabbi st., Al-malaz, Riyadh. Our activities began with gold trade (18 and 21 karat gold), and the store started to gain client's trust and become famous for providing the with the latest jewelry models. The trust was also mutual between the store and the gold wholesalers and we started to grow and become famous in the Saudi market, especially in our Riyadh.

we started to expand, a number of branches were opened and we started to import and deal with the Gulf market besides satisfying the needs of the local market.

1998 marked the emergence of modern shopping malls with the opening of Sahara Mall (Riyadh). Our store booked a place in where our services were developed with the addition of diamonds and Swiss watches and we started a partnership with international companies from Turkey, Europe and Eastern Asia.

In 2003 an agreement was reached to establish a Jewelry Factory to produce our own designs. Our high capacity Factory was built in Diriyah governorate and it recruited the best experts in Jewelry design. Having our own factory created a diversity in our products between designs from famous international brands and our own local designs. In 2008 an agreement was reached to change the trade name of our brand from (Al-Debeyan jewelry) to (LAPIS). Lapis means "gemstone" and "the blue sky" in Greek. It is a transparent blue gemstone which was considered the stone of friendship and loyalty in ancient Greece. That's why it was chosen to be the name of our brand, to distinguish us in the world of jewellery.

The status of our store was also changed from an establishment to a limited liability company.

Eng. Ibrahim A. Alshaikh

CEO
DAFFAH

In our group, we amplify the value of our position at the intersection of thousands of vendor, reseller and retailer partners by connecting a wide array of value chain activities across the globe. Our brands cover the full spectrum of fashion, F&B, and cosmetics products. The goal of our group is to continue to extend the global reach of our brands while ensuring that they maintain their independence and exclusive DNA. We profoundly support our global operations by way of an extensive sales and distribution network throughout the Middle East, Europe and North Africa

Mr. Mohammed AbdulAziz Alabbasi

Managing Partner
ALABBASI LUXURY FABRICS

In the early 1920s, founder Adeb Al Abbasi began his business journey at the age of nine, And at an older age he started trading in textiles in Mecca, Jeddah, Taif and settled down in his hometown in Riyadh.

Since then, we have been constantly expanding our business and increasing our expertise in this field. Today, we provide the Saudi market with the highest fashion of European and Asian fabrics.

Today, Al Abbasi boasts the reputation and credibility that has been gained over the years for quality, outstanding service, and a wide range of fabrics offered at competitive prices. Our main goal has always been to meet the tastes of our customers and fulfill their needs.

A success story has emerged through the expansion of our business and the proliferation of retail stores in the Kingdom of Saudi Arabia to facilitate access to our valued customers and expand the sites of our points of sale.

We have 10 outlets in Riyadh, for men and women, and the wholesale and central administration office is located in Al Quds Market, Riyadh.

Mr. Mohammed Nassir AlDuliam

President
Grand Homes Real Estate Development Company

Global Grand Group had its start when its founder, Sheikh Nassir bin Mohammed AlQahtani (THE FATHER), decided in 1978 to enter the world of entrepreneurship by establishing Al Sud International Company, dealing in the retail trade, general contracting and related works. In subsequent years, the Group expanded into a wide range of business sectors such as construction, contracting, trade, mining industry, hospitality, operation and retail.”

We are one of Saudi Arabia s leading elite companies. I do not claim that we are the first, but wherever you find professional touches in many sectors, you will find one of our companies.

Alongside booming population growth and the corresponding need for housing, the Saudi Arabia & GCC region is positioned to meet the need for infrastructural development to keep pace with the growing economy, As one of Saudi Arabia s real estate developers, we are addressing these needs by delivering pleasing environments for residential and commercial purposes. It is our goal to enrich the daily experiences and future of the community by enhancing public and private spaces and making them more accessible to all.

Our Vision

We have a clear vision to be the most trusted investment partner in Saudi Arabia & GCC region, and the benchmark for active ownership and creation of market leaders.

Our Mission

We will construct the future. As a trusted real estate investor, developer, and project manager, we collaborate with partners to create world class real estate projects that excite customers and are innovative and recognized for their design, quality, and return on investment.

Mr. Ghanem F. Alharbi

General Manager
Rowad Al Sharq Recruitment Office

Rowad Al Sharq Recruitment Office was established on 21/6/1437 AH. Under the management and supervision of Ghanem FAYHAN GHANEM Al-Harbi with a group of cadres specialized in the field of recruitment and employment of hard labor, which always strives for self-development and upgrading the standard of living.

With a license from the Ministry of Commerce and a recruitment office license from the Saudi Ministry of Labor No. (370137) Over the course of several years, we have been able to carve a name for us in the field of excellence in the field of recruitment by providing services from trained workers at the highest level of expertise and superior skill, and these domestic workers include nurses, nannies, drivers, farmers, property guards and cleaners, among others.

A special work strategy. We aim to provide distinguished services that meet the needs of all sectors of the Saudi society, including human cadres in various fields from different countries.

We are moving at a steady pace to achieve the Kingdom's vision 2030.

Mr. Mohammed S Al Ramadan

Managing Director
Alyaseen Agriculture

Since the establishment of our company in 1980, the founders have been insistent and clear in providing what is new and of added value to the agricultural sector in Saudi Arabia. In 2005, after a thorough study and consultation, the company's vision was formulated to reflect those desires and ambitions to lead the market and excel in offering the best and most economical solutions.

The company's goals were formed around developing itself by selecting the most outstanding and skilled staff. Giving them every opportunity to develop their abilities and provide the necessary support for them to accomplish their tasks at the highest levels. Our distinguished and capable employees are the real asset on which we build our business plans and believe that together we can achieve all the company's goals. In addition to the above, we are always able to introduce unique and value-added solutions and technologies to the Saudi agricultural market on partnership basis with our suppliers. The final goal of ours is to achieve financial benefits to our customers, suppliers and our company - including our employees - as a result of all our activities. Since the establishment of our vision, we have achieved a remarkable growth in sales and spread of our solutions throughout Saudi Arabia and achieved what we are set up to do. We still have a lot of ambitions that we are still striving to achieve, thus contributing to the development of the agricultural sector in Saudi Arabia in the light of the Kingdom Vision 2030 and the National Transformation 2020, which presented many opportunities and structural changes.

Many thanks to all our customers, suppliers, employees and those who have made our achievements possible.

Mr. Suliman Ali Alkhnizan

Operations Manager

- 8- Shipping and distribution department.

Mr. Nasser Al-Tuwaijry

Water and Mining Segment manager
Hitachi Energy

Our history dates back to the late 1800's when electrical engineering companies, ASEA and BBC (Brown Boveri & Cie), were formed during Europe's industrial revolution. After introducing electrical power transmission, rail and industrial technologies, these two pioneering brands merged in 1988 to create ABB. In the following three decades the company continued to develop industry-leading power and automation technologies through a combination of R&D and tactical acquisitions.

ASEA and BBC merge to form the new company, with headquarters in Zurich, Switzerland. The new group, which started operations on Jan. 5, 1988, had revenues of \$17 billion and employed 160,000 people around the world.

In 2020, Hitachi and ABB's Power Grids' business came together in a joint venture to create a new global leader in pioneering and digital technologies. As individual companies, both had been innovating and improving technology for over a century. Together, as Hitachi Energy, we bring forward and build on this remarkable heritage to tackle today's challenges facing business and society. Trusted as a partner of choice to the industry, we co-create best-in-class solutions that deliver on the promise of a sustainable energy future.

In Saudi Arabia Hitachi Energy is a well-established organization with two factories Grid Automation Factory Since 2002 with land area of 15,000 square meters and High-voltage GIS Factory Since 2015 with land area of 22,000 square meters.

Eng. Thunyan Al Thunyan

Chief Logistics Solutions Officer
SAL Saudi Logistics Services

SAL Saudi Logistics Services (SAL) is a leading integrated logistics service provider, with strong capabilities across Cargo, eCommerce, and 3PL. The Company is playing a major role in the transformation of Saudi Arabia's logistics sector from a position of strength built over five decades as the ground cargo handling division of Saudia, the national carrier.

With a capability at all Saudi Arabia's airports and major operations at four key hubs – Riyadh, Jeddah, Dammam and Madinah – SAL handles 99% of the country's inbound and outbound air cargo.

A network of long-standing relationships lies at the core of SAL's increasingly important strategic position in the Saudi economy. The Company collaborates closely with Saudia Cargo and over 50 international airlines as well as a wide range of international and government agencies to ensure reliable and efficient provision of cargo handling services. Key relationships include global organisations IATA and ICAO, as well as the Ministry of Transport, Ministry of Interior, General Authority of Civil Aviation, Saudi Customs, and the Saudi Food and Drug Authority.

SAL is investing over SAR 1.5 billion to upgrade its operations to help meet expected significant growth in air cargo over the next decade and demand for specialist services. In Riyadh and Jeddah, SAL is adding new technology-enabled, fully integrated facilities that are cutting handling times substantially and increasing capacity to handle perishables and complex products such as pharmaceuticals and vaccines.
